

San Juan Council Chambers

TVS Pro Project

San Juan County wanted a modern council chamber with substantial AV upgrades. The upgrades that were desired, purchased, installed, and programmed included: video matrix capabilities with wireless presentation capabilities to room TV's and monitor's, a USB PTZ camera for video conferencing, microphone integration for local sound re-enforcement and USB videoconferencing, video and audio recording and streaming capabilities, speaker upgrades, multi-zone audio, and a control system.

Monitors and TVs were provided by client; all other equipment was provided by, installed, and programmed by TVS Pro.

Key AV Equipment: Extron control system, audio processing & streaming/recording equipment, Aver PTZ camera, Kramer VIA Connect Pro, Shure Microphones

Owner: San Juan County

General Contractor:
HK Consulting
